

YOUR PROJECT WITH ARGOS

Argos, a unique worldwide location and data collection system dedicated to studying and protecting the environment

www.argos-system.org

HOW TO GET YOUR DATA

ArgosDirect

ArgosDirect is a data delivery service that ensures you receive your data automatically via FTP or Email.

ALL your data is sent directly to your desk for only €30 per month per active Argos ID

OUR SOLUTIONS

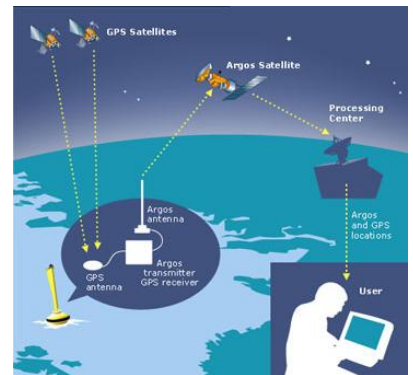

- CLS provides a **monthly fixed-price** service per active transmitter.
- Unlimited data included
- Choose up to 3 recipients
- 2 delivery methods available: Email and FTP

FTP	Data will be transferred to a predefined folder on the user's server via the Internet
E-mail	Data will be sent to their email addresses (either as an attachment or in the core of the email)

- Different formats available: CSV, XLS... and Argos formats : PRV/DS, DIAG...
- Select your sending strategy : new collected dataset, every hour or once a day
- A unique monthly fee of €30 / Argos ID

ARGOSDIRECT ADVANTAGES

- No need to check your data regularly
- Don't miss out on any Argos data when you're out of your office
- Easy to budget
- Share your data with your colleagues
- Control your ArgosDirect charges with a flat fee
